

THANGA VENKATESH R

Full Stack Developer | React.js | Node.js | AWS

6379670300 | thangavenkateshr@gmail.com@gmail.com | Tirunelveli, India | [LinkedIn](#) | [Portfolio](#) | [GitHub](#) |

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications using **React.js, Node.js, Express.js, REST API's, API integration** and manage databases (**MongoDB, MySQL**). Passionate about building responsive, user-friendly and scalable web-applications using front-end technologies.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind-CSS, Api integration
Backend	Node.js, Express.js, REST APIs
Databases	MySQL, MongoDB
Tools	Git, GitHub, Postman, JWT Authentication, Thunder Client
Languages	JavaScript, Java

WORK EXPERIENCE

Full Stack Developer Intern — Novi Tech Pvt Limited, Coimbatore Nov 2025

- Built responsive full-stack web applications using React.js and Node.js.
- Integrated REST APIs and managed component-level state for dynamic UIs.
- Collaborated with team on testing and deploying production-level features.

PROJECTS

Portfolio website | React.js, tailwind-CSS | 2026

- Developed a responsive personal portfolio website using **React.js** to showcase projects, skills, and contact information. Designed a modern and user-friendly interface using Tailwind CSS with smooth animations powered by Framer Motion.

E-commerce website | React.js, Node.js, MongoDB, aws, tailwind-CSS | 2026

- Developed a full-stack e-commerce web application using the MERN stack (**MongoDB, Express.js, React.js, Node.js**) with complete user authentication and product management features. Implemented secure login and registration using JWT and session-based authentication. Designed responsive UI using Tailwind CSS for better user experience. Designed RESTful APIs with role-based middleware and JWT for secure access.
- Built RESTful APIs to handle product listing, category filtering, cart management, and order processing. Integrated payment functionality by Razorpay for secure online transactions. Stored user data, orders, and product details in MongoDB.

Tourist website | React.js, Node.js, MongoDB, aws, tailwind-CSS | 2026

- Built dynamic features where users can browse destinations by category (e.g., North India, South India), view detailed information about each place including images, descriptions, and travel costs.
- Created RESTful APIs to manage destination data, user interactions, and bookings. Stored destination details, pricing, and user data in MongoDB. Implemented navigation and dynamic routing for seamless user experience.

EDUCATION

Bachelor of Computer Science (2022-2025)

Einstein College of Arts and Science (Tirunelveli-Town).
